Descendants of the race of Stenka Razin, greatest hero of the centuries old Cossacks who lived and died in the Don River Valley, these thirty-four men, since their invitation to be the official chain of the Orthodox St. Sofia Cathedral, have traveled more than a million miles to sing almost five thousand concerts in every corner of the earth.

With folk tunes, Cossack soldier songs, and liturgies dating back a millenium, these Muscovite melodists are now in the thirteenth season in America, where last year they performed in one hundred cities in less than five months.

This musical corps is the product (See Cossack Chorus, Page 4)

We Asked For It

We asked for it—now we've got it. But we aren't living up to our pledge. Last quarter our campus defense committee presented, after weeks of work and study, an excellent plan for the organization of our campus defense activities.

We, the student body, agreed to this plan practically unanimously. The plan for military drill was accepted with enthusiasm and for the first few weeks the student body turned out nearly one hundred per cent, and displayed their earnestness in participating in a program of physical fitness. But this week only a fraction of the original company appeared for drill. The first few weeks the surgical dressings were made far ahead of schedule but now only a few girls are helping in this much needed work.

Can it be that we are of the crowd who waxes enthusiastic over the proposal of something new and different and then loses interest just when the project should be showing some fruit?

If we want military drill, let's have it one hundred per cent. If we don't want it, why have it at all? We wanted to help directly in the war effort. We have our chance in the surgical dressing room. Why not take advantage of it? Come on—let's prove we aren't slackers. You know what they call a soldier that shirks his duty.—B. W.

Invest In Freedom

Fundamentally, this is a young man's war. But in many important ways this is also a young woman's war:—young women in uniform and young women in overalls; young women in field and factory, in office and hospital.

You as young college women have a definite part to play in this crisis. For even in the classroom, today's Total War is not merely academic. It is actual.

Young women students, everywhere, are keenly aware of the facts of the war; they must also be alert to the way in which those facts affect them as women and as students. They must recognize the unpleasant fact that a Totalitarian triumph would destroy their very freedom to attend the college of their choice.

They have a tremendous stake in the war; for if we were to lose it, they would lose their future, and youth deeply deserves a future. They also have a service to perform and they are performing it with their characteristic enthusiasm and determination. I know that, for my own daughter, a college sophomore, tells me of the many war services her classmates are rendering.

One thing you can all do is to buy War Bonds and Stamps. Perhaps you cannot invest vast sums of money. But you can invest an appropriate share of all you receive or earn. And as you invest this money you will also be investing your own sacrifice and self-respect. In a practical and patriotic way, you will be uniting scholarship and citizenship.

You will also be investing in the future. Youth has always depended on the future.

Carewising

By GEORGETTE CAREW

Have you ever gone into the BREEZE room and looked at the clipping that is pasted just above the light switch? If you have, you saw the following little verse by Henry Van Dyke—"Be glad of life, it gives you the chance to love and to work, and to play, and to look up at the stars." Just pause a minute and try to get the full meaning of what that verse says. So many of us have forgotten how to "be glad of life"; we go on day after day finding fault with almost everything and never stopping to realize that there is so much to be glad of.

This isn't intended to be a lecture on the appreciation of life, but it is intended to give you a little something to think about.

With the wind whistling and pleading to get into the room, and with the sun shining forth in all its glory, we seem to be getting a preview of the coming spring. When you come down to think of it, we are darned lucky to have different seasons of the year. If we don't especially care for winter, we always have the spring and summer to look forward to and vice versa.

And then there are always the holidays. I guess you can't call Valentine's Day a holiday, unless it would be a holiday for the heart. The one day out of many, that we think of it other than a body pump. How romantic to call the heart a body pump, but so it is.

It certainly is wonderful the way the Valentine verse writer can think of so many ways of saying "I Love You." Those three magic words that can change hell to heaven. Oh, how great is the power of words!

I wonder if they have a Valentine verse writers union?

"Newspapers and the War"

Newspapers are morale builders, then if they could. Getting this stuff and morale to the civil population off our chest, is good for the country. It improves morale, and besides that, one can be certain that one who comes out with the bitterness that is in him is not going to be a fifth columnist.

No newspaper can appear before the public without recordings of the opinions of either expert commentators on the state of affairs, through editorial columns especially, or opinions of the citizen who presents his criticism and complaints in a "Letters to the Editor" column.

Appearance of silly criticism in a "Letters to the Editor" column, has its own peculiar value, too. First thought is that many words against the government or men in charge of government, printed for the eyes of all to see, might arouse a people to dangerous action, but the influence is almost exactly opposite. Such letters serve as a purge to the minds of those who wrote them and give comfort to those who would like to have written.

GRAPE VINE GLIMPSES

If you've never read the assignment sheet in the Breeze room for the editorial staff, you have really been missing something. Mary Elizabeth Robertson will verify this statement since her assignment was written up in the following manner: "There is a Madison Quarterly story somewhere within the realms of this institution. Dr. Schubert is your man. Ha! I'm just kidding, don't you wish he really were!" WHAT would Mrs. Schubert say?

G.V.G.

A rumor is going the rounds that the girls in the Dingledine Home Management house are exceptionally fond of macaroni; especially Louise Vaughn. It seems that Louise, as the cook, followed the directions written on the box regarding the amount used for nine people. From the quantity of macaroni cooked, any nine people capable of eating that much would certainly have to have been mighty big eaters. This is one case where believing everything you read had rather drastic results. Louise, are you sure you aren't getting a commission from the macaroni company? We wonder what those macaroni sandwiches are going to taste like?

G.V.G.

After glimpsing about, it has been found that Spotswood has taken to "the bottle." The standards committee may relax since it is a bottle of peroxide and not "mountain brew dew". What's the matter, aren't you kids satisfied with nature?

G.V.G.

The grapevine reveals the news that the seniors in Senior hall, have been BAD GIRLS! It's all because of the fire drill-vs.-rainy weather problem. We hear tell that, unless there is more cooperation, a fire drill will be held every evening. Tsk, Tsk, aren't you girls ashamed?

G.V.G.

If you happen to be accosted by an eager fem asking you "Just what type am I?" just relax; 'cause it's the self analysis group trying to learn the whys and wherefores of their life.

Volley Ball Season Will Open January 26, Announces Eley

Volley ball season opens January 26, with tryouts for company teams, announces Emma Ruth Eley, volley ball sports leader, who urges that all military company commanders have their cadets out in full force for tryouts.

This year inaugurates volley ball as a competitive sport between the companies rather than between the classes of the school.

Tryouts will follow the schedule below on Tuesday, January 26, to see who will make company teams. Previous experience will not be necessary, says Eley.

Practice Schedule Announced

The team, when selected, will practice on Thursday, January 28—according to the following schedule: 7:30-8:30, Company A vs. Company B and Company C vs. Company D in Reed gym; Company E vs. Company F in Ashby gym. 8:30-9:30, Company G vs. Company H, and Company K vs. Company L in Reed gym. There will be no elimination from these practices.

The tryout schedule is as follows: on January 26, 6:45-7:30, Co. L and Co. K in the Big gym, Co. H in

Ashby; 7:30-8:15, Co. G, Co. E in Big gym and Co. E in Ashby; 8:15-9:00, Co. D, Co. C in Big gym; 9:00-9:45, Co. B, Co. A in Big gym.

Point System Announced

The point system announced last week by Dot Pitts will begin with the volley ball contests, and the winning team after the elimination games, will get 12 points; runner-up 8; company with most out for tryouts, 5; for having a team, 2.

Charts To Be Posted

The points will go toward the grand total, compiled during the year, from various sports in which the teams engage, and the team with the highest number of points, at the end of spring quarter will receive recognition before the student body and guests.

Volley ball season is being used as a trial for the new point season, and all persons are asked to come out to make the program a success.

Elimination charts will be posted in Harrison and Reed in order that all can see current winnings.

The point system for companies will also be posted at various regular intervals.

Famed for their singing, they are likewise renowned for their horsemanship. However, in the thirteen tours they made through the United States they became car-conscious and soon each had abandoned his four-footed hobby for an eight cylinder power wagon.
